

Migrating Towards Better Rivers Workshop
Saturday 2nd of March 2013

Objective Setting

Listed below are the objectives delegates were asked to give for attending the workshop.

- To listen and learn
- To protect what we have left
- Enhance what we have
- To find out what is happening and protect DDAPS investment
- Find out how we can improve natural environment
- A love for the area, fishing and wildlife and to find out how it can be improved
- Live by the river and concern about reduction of variety if wildlife over the years, would like common sense measures for improvements
- Better understanding about the issues
- Find out what's happening about abstraction
- Find out about future river abstraction nearing in mind future development
- Find out how we can create an optimal environment for wildlife (are there otters etc?)
- Here to listen to talks and hear different views
- Come to listen find out more about what's happening and see if the Environment Agency has learnt lessons for Vitbe
- We need a better understanding about how water levels on the Darent are managed too much and too little water
- Live by the river, come to find out more, make contacts and feed back to (Eynsford) Parish Council would like to see how local kids can get more out of their river
- To learn more about the river flow
- Concerned about the river and the threat of the European Union Water Framework Directive
